## LITTLE KAUKAUNA LOCK AND DAM, SANITARY BUILDING

HAER NO. WI-89-E

HAER  
WIS  
S-ROCK,  
1E-

Location: The sanitary building at Little Kaukauna is located northeast of the lock shelter in the SW1/4, Section 18, T22N, R20E, Civil Town of Rockland, Brown County, Wisconsin.

UTM: 16/410460/4914240; USGS Quadrangle: De Pere, Wisconsin 7.5' series

Date of Construction: 1978

Engineer: United States Army Corps of Engineers with Contractors

Architect: United States Army Corps of Engineers with Contractors

Present Owner: United States Army Corps of Engineers

Present Use: Toilet and washing facilities for lock personnel.

Significance: The sanitary building serves as part of the daily operation of the Little Kaukauna Lock and Dam Complex.

Project Information: This documentation was undertaken in 1995 in accordance with requirements detailed in a June 19, 1994 letter from Gregory D. Kendrick, Chief, History Branch, NPS to Dale Monteith, Acting Chief, Planning Division, USACOE, Detroit District. The Lower Fox system remains basically operational but was placed in caretaker status by the USACOE in 1982. The USACOE plans to divest itself of the Lower Fox system as soon as is feasible; therefore, NPS requested this documentation. All documentation conforms to HAER standards.

Dr. John D. Richards, Principal Investigator; Georgia A. Lusk, Patricia B. Richards, and Robert J. Watson, Project Archivists with Great Lakes Archaeological Research Center, Inc.; Joseph Paskus, Project Photographer.

## **SANITARY BUILDING**

The Lower Fox River Waterway begins in Menasha, Winnebago County, Wisconsin, and extends 37 miles through De Pere, Outagamie and Brown Counties to Green Bay, Wisconsin. However, for shelving purposes at the Library of Congress, Menasha in Winnebago County was selected as the "official" location for the Lower Fox River Waterway.

The sanitary building at Little Kaukauna Lock is situated on the north side of the lock, directly north of the lower gates. It is a rectangular, cinder block building constructed on a concrete foundation. It is painted blue with white eaves. The sanitary building has an overhanging roof pitched slightly to the rear with a protruding metal pipe capped by a revolving, louvered vent. Entry is gained through a door in the southeast wall.
